

Care Pregnancy Center May 2010

April Client Activity

- ❖ 20 Visits
 - 45 Clients Served
 - 1 New Baby

Happy Mother's Day

The Director's Corner -

What a wonderful time of year. The weather is warming, buds are blooming, and there's a special day set aside for moms. But what do we have that's not given to us by God? Nothing! God supplies all. May we bless Him with our gifts.

Now Happening

- ❖ Baby Bottle Fundraiser Starting This Sunday, 9th of May

From Our Volunteers:

Hello, my name is Illona Jeeninga and I have been a volunteer with Care Pregnancy Center since June of 2009. I am a single parent of a wonderful 7 year old daughter. I am a Licensed Social Worker and am available to provide counseling services to those who come into CPC and to assist with material needs through Hannah's Closet. It has been a blessing to find an agency where I can show God's love to those who may feel like no one cares, or that they are all alone in their current situation.

I have been blessed with experiences that allow me to truly understand and connect with women who are facing a crisis or unplanned pregnancy. To understand decisions that need to be made, such as, choosing to parent (possibly as a single parent), or having another family raise this child through adoption, etc. My training as a Social Worker, and personal experiences, have given me the ability to have a different perspective than others may have, which can be beneficial when counseling women facing a crisis or unplanned pregnancy.

Jeremiah 1:5 states "Before I formed you in the womb I knew you, before you were born I set you apart;" (NIV). God knows what He is doing, and would not create a child that He did not already plan for, and couldn't take care of. It is my privilege to talk with women who are feeling like their world is falling apart, providing comfort and presenting options that they may not have considered otherwise. It has been my honor to join with Care Pregnancy Center and work to assist and provide services to women, and men, facing a crisis or unplanned pregnancy.
